

Keynote incl. Free Communication

## **Autologous breast reconstruction - What is new in autologous breast reconstruction?**

Friday, 4 Sep 2026, 8:30 a.m. - 10 a.m., Cube 1

---

Chair: Jian Farhadi (Plastic Surgery Group), Filip Stillaert

---

### **The LAP-flap: The second best one?**

Speaker: Filip Stillaert

---

### **Trends and innovations in autologous breast reconstruction**

Presentation time: 12 min

Speaker: Andreas Arkudas

---

### **Alternative flaps in breast reconstruction**

Presentation time: 12 min

Speaker: Jaume Masia

---

### **Thromboprophylaxis in autologous breast reconstruction**

Presentation time: 6 min

Speaker: Arash Momeni (Stanford University)

---

### **Single versus Dual Venous Anastomoses in Deep Inferior Epigastric Perforator Flap Breast Reconstruction: A Retrospective Cohort Study**

Presentation time: 6 min

Abstract Presenter: E. B. Blais (CHUM ( Centre Hospitalier de l'Universite de Montreal))

---

### **Advancing Breast Reconstruction: Assessing the Current Role of Patient and Public Involvement (PPI): A Systematic Review**

Presentation time: 3 min

Abstract Presenter: A. F. Bucher (University of Geneva)

---

### **One-and-Done? The Reconstructive Path after Autologous Breast Reconstruction**

Presentation time: 6 min

Abstract Presenter: A. Werner (University of Heidelberg)

---

### **Improving macroscopic and microscopic efficiency in autologous breast reconstruction theatres**

Presentation time: 3 min

Abstract Presenter: W. H. Clay (Mid Yorkshire Teaching NHS Trust)

---

**Beyond ERAS: Evidence-Based Stratification of Emerging Perioperative Strategies in Autologous Microsurgical Breast Reconstruction**

Presentation time: 3 min

Abstract Presenter: T. G. Reina Di Nunzio (Affidea)

---

**Augmentation mastopexy approach for autologous immediate breast reconstruction**

Presentation time: 6 min

Abstract Presenter: M. Deng (University of Sheffield)
