14 — Keynote incl. Free Communication

Implant-based breast reconstruction - current trends

Thursday, 3 Sep 2026, 3 p.m. - 4:30 p.m., Cube 1

Chair: Tine Engberg Damsgaard, Yves Harder

Pre-pectoral versus sub-pectoral implant-based breast reconstruction (IBBR) after mastectomy for breast cancer treatment or prevention: The international randomized phase III PREPEC trial (OPBC-02)

Presentation time: 10 min

Abstract Presenter: W. P. Weber

Practical, predictable, prepectoral: 3P direct-to-implant breast reconstruction with smooth silk implants

Presentation time: 10 min

Speaker: Burcu Celet Ozden

Lightweight implants for breast reconstruction: where are the indications?

Presentation time: 10 min

Speaker: Norbert Heine

Multi-stage hybrid breast reconstruction: Can we omit the implant?

Presentation time: 10 min

Speaker: Filip Stillaert

The impact of polyurethane coated implants on the risk of capsular contracture after immediate prepectoral breast reconstruction in the setting of postmastectomy radiotherapy: the OPBC-09 PRExRT study

Presentation time: 10 min

Speaker: Rama Kiblawi

Use of nano-textured implants in reconstructive surgery for breast cancer patients

Presentation time: 3 min

Abstract Presenter: S. Saadudzinava

Multi-stage hybrid breast reconstruction combining implants and repeated fat grafting: A patient-reported outcome assessment using BREAST-Q

Presentation time: 6 min

Abstract Presenter: L. Costa

Salvage of the Implant Pocket in Periprosthetic Infections: A Personal Case Series Utilizing NPWT and NPWTi-d

Presentation time: 6 min

Abstract Presenter: L. De Pellegrin

Preserving the Pocket: A Pragmatic Salvage Strategy in Implant-Associated Breast Infection Using Temporary Implant Sizer and Negative Pressure Wound Therapy

Presentation time: 6 min

Abstract Presenter: G. Fischer

Discussion

Presentation time: 13 min

Chair: Tine Engberg Damsgaard, Yves Harder
