31 — Keynote incl. Free Communication

Autologous breast reconstruction - What is new in autologous breast reconstruction?

Friday, 4 Sep 2026, 8:30 a.m. - 10 a.m., Cube 1

Chair: Jian Farhadi, Filip Stillaert

Machine learning for prediction of PMRT and personalized breast reconstruction complications

Presentation time: 10 min

Speaker: Kathryn Isaac

Trends and innovations in autologous breast reconstruction

Presentation time: 10 min

Speaker: Andreas Arkudas

Alternative flaps in breast reconstruction

Presentation time: 10 min

Speaker: Jaume Masia

The LAP-flap: The second best one?

Presentation time: 10 min

Speaker: Filip Stillaert

Advancing Breast Reconstruction: Assessing the Current Role of Patient and Public Involvement (PPI): A Systematic Review

Presentation time: 3 min

Abstract Presenter: A. F. Bucher

Beyond ERAS: Evidence-Based Stratification of Emerging Perioperative Strategies in Autologous Microsurgical Breast Reconstruction

Presentation time: 3 min

Abstract Presenter: T. G. Reina Di Nunzio

Augmentation mastopexy approach for autologous immediate breast reconstruction

Presentation time: 6 min

Abstract Presenter: G. A. Awad

Improving macroscopic and microscopic efficiency in autologous breast reconstruction theatres

Presentation time: 3 min

Abstract Presenter: W. H. Clay

Single versus Dual Venous Anastomoses in Deep Inferior Epigastric Perforator Flap Breast Reconstruction: A Retrospective Cohort Study

Presentation time: 6 min

Abstract Presenter: E. B. Blais

One-and-Done? The Reconstructive Path after Autologous Breast Reconstruction

Presentation time: 6 min

Abstract Presenter: A. Werner

Thromboprophylaxis in autologous breast reconstruction

Presentation time: 6 min

Speaker: Arash Momeni

Discussion

Presentation time: 17 min

Chair: Jian Farhadi, Filip Stillaert
